

Rob Kohuch

Comparison of the Approval of Ex Products in Europe and the UK -

Learn about the certification requirements for Ex Equipment and Components in Ex Areas in Europe (ATEX) and UK (UKEX). Manufacturers will learn what is required to have their Ex Products in the EU and UK markets. The current state of EU/UK relations as it relates to Ex products will be discussed.

Rob Kohuch, P. Eng. is the Senior Engineer for Ex products for QPS Evaluation Services in addition to serving as the Certification Manager for QPS's ATEX notified body and the UK approved Body (3C Test).

He has 20+ years of experience in the Ex Industry as an installer, certifier and senior technical role. He is a member of several technical committees in North America and representative for the ATEX Notified Body Group and the UK Approved Body Groups.

Rob is an IECEx Certification of Personnel Competency Examiner with particular expertise in the field of Area Classifications to IEC 60079-1. He is currently working on development of Hydrogen Technologies certification program with IECEx WG19 as a committee member.
